Subject : Re-edition and correction of the Brief written on May 12<sup>th</sup> 2025

Firstly , I would like to fix an error that I made within the previous letter dated on May 1<sup>st</sup> 2025. I mistakenly stated that I entered the Dominican Republic on December 2024 , but on December 2024 I was in Atlanta , GA , in the United States . I left France on December 8<sup>th</sup> 2023 , and I entered the Dominican Republic ( Port of Santo-Domingo ) around December 22<sup>nd</sup> 2023 . It was my third time on a ship . My first time was on June 2022 to London ( from Calais ) , then to Estonia from Finland about September 2022. The trip to London and the one to Estonia were only about a couple of hours by sea . The one to Dominican Republic in departure from the port of Marseille was about a couple of weeks , going through the Ocean . I remember the good food and the good ambiance within my last cruise to Dominican Republic. There were some fish , meat , good vegetables , orange juice , nice cakes with a lot of chocolate and a lot of cheese. I traveled alone without friends or family , I felt myself so incredibly free , traveling into the world and realizing all my wishes . I met some great people during the trip and there were many families , mostly from Italy . That voyage occurred about 10 months after I got deported from Uzbekistan ( Tashkent ) to Paris , forced and accompanied with 2 doctors inside the plane . On March 2023 , after having been held around 40 days inside a psychiatric hospital in Tashkent against my will , I finally was deported under escort of these doctors .

On January 2023 , I was free within Tashkent , but I developed some indigent problems , and I had to go to the French embassy to ask for some assistance because I couldn't pay for the hotel anymore . The French officers of that embassy got me into a trap saying there were only 2 options : either I accepted to follow the doctors to the hospital or get out of the French embassy with neither assistance nor money and sleep outside , on the ground . The French officers said I was mad because I usually traveled into the world with a limited budget and because I sent them some e-mails with a bit of sarcasm wherein I stated that I was the Pharaoh and the king of Egypt . Those officers do not accept this kind of joke , but I did it for a good reason : I just wished to remind these people that freedom of speech as to be preserved as it is included within my human rights . The doctors got me out of the hospital and took me to Frankfurt in Germany , forcing me to get into a first plane with them . I was supposed to get into a second plane from Frankfurt to Paris with these same doctors , but I refused to get into the second one , and police officers of Germany reminded them that they were not allowed to force me to get into a plane against my will . I got into the train from Frankfurt without the doctors and went back to France ( Metz ) , where I dwelt for 6 weeks before going back to Narbonne .

Fortunately, I made the right decision when I refused to get into the second plane because the French officers were waiting for me at the arrival with a lot of doctors to force me to go into another psychiatric clinic, in Paris. This was not the only time that French officers tried to keep me locked-up against my will, and they do not hesitate to lie to the authorities to accomplish that purpose. They lied to the doctors, saying I was mad and they cannot agree with my political opinions, it is the main reason of such a persecution! The freedom of speech has a brim, and it is not permitted to support any criminal or terrorist organization. However, just because I told them that I was the Pharaoh and the king of Egypt, that does not mean they were allowed to deny all my legal requests for assistance in Tashkent and put me in a psychiatric clinic against my will. I have seen a lot of bad things inside this place, the doctors sometimes assaulted the patients and gave them a lot of drugs and cigarettes to make them mad... The officers of the French embassy were not allowed to get me out of Uzbekistan as I didn't exceed the lawful right of stay permitted without a Visa, which means 30 days. When I went to the French embassy, I had only spent a couple of weeks within the country and I had never committed any crime or felony in Uzbekistan. What they did was illegal... Prior to entering Uzbekistan, I dwelt around 44 days in Kazakhstan (Astana and Almaty), and prior entering Kazakhstan I dwelt around 40 days in Russia (Saint-Petersburg, Moscow and Omsk). Prior to entering Russia, I dwelt around 100 days in Estonia and prior to entering Estonia, I was in Finland for about 5 weeks (in Helsinki). I stayed around 4 weeks in Sweden and a bit longer than a couple of weeks in Denmark (where I lost my French passport inside a homeless shelter) prior to getting into the train to Finland (without any money). I was sometimes forced to sleep outside, but I do not regret anything and it was a good adventure. I made all this trip alone and with a very limited budget.

On August 2023, after having spent some time in Metz and Narbonne, I decided to go back to Avignon in France where my friend is currently living, and I stayed with him for about 4 months, seeking and applying for some job opportunities. It was on summer and the famous festival took place as well (which attracts a lot of tourists each year). I met my girlfriend on July 2023 (when I was still living in Narbonne, a few time before going to Avignon), in Montpellier, a city near to Narbonne. I went often there when I was living in Narbonne because Montpellier is bigger and there are more opportunities within this city. Once, near to the main place of Montpellier town-center (place de la comédie), I saw this beautiful blond girl who was walking alone and decided to get out of the tramway and go to talk to her. A short time after this, I had a meeting with that woman in Agde where we went into a natural hidden place and drunk a little bit of good wine! When I advised her about my wish of leaving France and going to United States by sea, she replied: "Oh my God, you are so crazy!" She said it because I made that decision hastily without even planning anything. I went to Dominican Republic to get closer to United States as I was not able to stay inside a plane for 9 hours in a row (phobia) and I decided rather to reserve a place on the ship to Saint-Domingue because there was not any departure to United States with the cruise at this time. Once, I have been deported from Turkey too, about June 2022 because I exceeded the legal delay of 90 days of stay in the country, permitted without any Visa and I was caught at the border with Iran on May 2022.

I stayed in Turkey from January 2022 to June 2022 and I was so lucky because I was in Ukraine too from November 2021 to January 2022 (a few time before the war was coming up). I got a flight with the help of Kharkov French consulate because I was also indigent in Ukraine. The plane did not go directly to Paris, so I got into the first plane to Istanbul and was supposed to get into the second one in departure from Istanbul to Paris. Instead of this, I decided to dwell in Turkey for awhile because this kind of trip makes me feel happy and because I am so scared about the plane. I stayed for 6 weeks in Istanbul then around 10 days in Ankara. After this, I came back to Istanbul because I got some strong fellowships in that city. Then I went to Antalya (the best city of Turkey) where I dwelt for a couple of months before going to Alanya, Mersin and going through some other cities en route.

When I went to Paris , after the deportation from Turkey on June 21<sup>st</sup> 2022 , I immediately reported to police officers of France that I was planning to travel to London . One of the officers among the staff said that I was very lucky and got a good life , saying I was a real “ Globe trotter “ . Another officer from this unit was joking because there was a lot of rain in Paris , on this day and it was the first day of Summer ! After my departure from the police office on the same day , I went to the Paris train station ( Gare du Nord ) to go to Lille , then Calais where I spent the night inside a Inn , awaiting for the next available ship to England . I immediately took the bus and then the train to London after my arrival in the country by sea . I visited the capital of England for approximately 8 days and I very enjoyed it ! I will go back , for sure !

I will talk further about my trips , but to conclude this brief I will say a few words about the proceedings , and I am requesting an attorney , because I tried to get one by myself but all my legal requests to achieve this purpose have been denied . After more than 166 days inside the Stewart detention center , I really need to be represented . All my human rights have been denied since January 10<sup>th</sup> 2025 . The officer Gonzalez Amberly who made my first interview of admission , in Fort-Lauderdale , on October 16<sup>th</sup> 2024 , voluntarily lied over the declaration stating upon the notice that I replied : “ from an employer “ to the following question : “ From who do you expect to get an authorization to work ? “ . I never replied : “ from an employer “ and instead of this the correct response was : “ from the French embassy “ . This officer might be aware that lying over a declaration to get somebody in troubles with the immigration laws is a crime in the United States and I require a legal prosecution about what she did . If I am lucky enough , this Interview was recorded and the F.B.I Officers will be able to listen it

I want to conclude this brief by reminding that the Immigration laws state that the reasonable period of imprisonment must not exceed 6 months except if the detainee may represent a reel risk or danger for the community. All the arguments from Mr Bush David , trying to extend this time saying that I may be a flight risk , are unacceptable . Torture and persecution are not permitted in the “ democracy of the United States “ and instead of stubbornly wishing to harm me further and keep me as much time as possible in custody , this officer shall be graceful enough about the luck he got of being born in United States and he shall respect the laws enacted within the Constitution . I BEMOAN AGAINST MR BUSH DAVID AND MRS BOURGIN REBECCA ABOUT EMOTIONAL HARM , ILLEGAL DETENTION AND PERSECUTION . These people are very cruel and insane and I still don't understand why they have so much power and jurisdiction . They are using their influence to keep me as much time as possible inside the facility . They will use all the tricks and lies to accomplish their purpose insidiously ( without being unmasked ) because these stupids people want only one thing : get the satisfaction of harming and persecuting somebody , that they consider as being an enemy.
