My name is Abdulkadir Abdi Ali. I'm 51 years old male citizen of Ethiopia. My birthdate is . I entered the United States by the border of Mexico in the state of California. It has been over 10 months since I got detained.

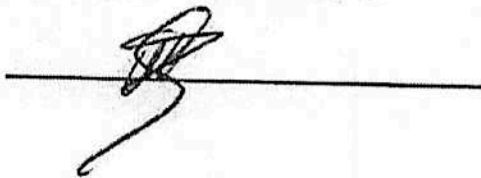

If the homeland security deport me back to my country I will get tortured and killed. I do not support the government of my country Ethiopia because they are dictator. The government are very corrupted. They kill people for money. They do whatever they can to stay in the parliament.

 I did not have time to get a visa for the United States.

On September 2024 after I entered the United States In California I surrendered myself to the border patrol agents. It has already been over 10 months in detention. I am too old to survive here. In these detention facilities they don't have proper medication for my diseases. I also need a good healthy diet for myself. During the past 10 months I became very weak both physically and mentally. Now I also suffer from depression and stress.

I am a hard working religious man. I do not have any crime history in any country. I can speak Arabic and English. I have a valid driver's license in Ethiopia. I had a grocery store in Ethiopia. I have a very decent customer service relation. I will be a benifit for the United States of America.
