Official Report for Court Submission

Introduction

Honorable Judge,

I respectfully submit this report, based on official sources from the United Nations and other trusted international organizations, to demonstrate the severe humanitarian crisis unfolding in Sudan.

The evidence clearly shows that airports, hospitals, and civilian infrastructure have been destroyed or rendered non-functional due to ongoing attacks, proving that civilians are the primary victims of this war.

Main Findings

1. Escalation of the War and Civilian Impact

The war in Sudan has dramatically escalated, with the use of heavy weapons and drones in densely populated civilian areas.

This has resulted in mass civilian casualties and widespread destruction of critical infrastructure, including airports and hospitals.

OHCHR – Sudan war intensifying with devastating consequences for civilians, UN Fact-Finding Mission says (17 June 2025)

2. Attacks on Hospitals and Health Facilities

Hospitals and health facilities have been directly targeted. One of the most shocking examples was the attack on Al-Mujlad Hospital in West Kordofan, which killed more than 40 civilians, including children and doctors.

 Source:

The Guardian – WHO says attack on Sudanese hospital killed more than 40 civilians (24 June 2025).

3. Attacks on Humanitarian Aid Convoys

A United Nations humanitarian convoy heading to El-Fasher was attacked, reportedly by a drone strike, killing five people.

Such attacks constitute war crimes under international law, as they deliberately target protected humanitarian operations.

 Source:

AP News – Attack on aid convoy in Sudan's Darfur kills 5, UN says (14 June 2025)

4. Mass Displacement and Humanitarian Collapse

More than 4 million refugees have fled across Sudan's borders into neighboring countries. Inside Sudan, over 12 million people are internally displaced, making it the largest internal displacement crisis in the world today.

Reuters – More than 4 million refugees have fled Sudan civil war, UN says (3 June 2025).

Conclusion

The official reports from the United Nations and international organizations confirm that the war in Sudan has destroyed civilian infrastructure, shut down airports and hospitals, blocked humanitarian access, and displaced millions of people.

This evidence demonstrates the catastrophic humanitarian and legal situation in Sudan and underscores the urgent need for protection and accountability.
