

Dear Chief Judge Pamela Pepper

My name is Charles J Muller I came to the United States of America when I was four years old At the end of Apartheid in South Africa. I was on heavy medication for my seizures as a child I was told by my parents that I was all good with my paper work grow up in the USA.

But not till later in life did I find out that was a lie. long after I had graduated high school and had gotten married to a US citizen. I have 3 young children here that don't understand why their father were taken from them to send a white South African head sound American Back there is a Death Sentence. let alone my chances of getting a job here are less than 3%.

I would have a better chance in Canada or Mexico even tho I can't speak Spanish. Any where is better than sending me back to South Africa.

The other Reason I Reached out to the Federal court system is the violation

So Please give me a chance to  
Plead my case Not only for me  
But my family.

Thank you  
from  
Charles J Mueller
