SWORN DECLARATION FOR NOTARIZATION

I, Gabriela Casas, being of legal age, hereby declare under oath that the following information is true to the best of my knowledge

On the day of the incident, at approximately 6:00 a.m., our family member was the victim of an extremely violent physical attack while he was sleeping inside the detention facility where he is currently being held.

According to the information received, the aggressor broke a plastic fork and turned it into a sharp object similar to a knife and used it to attempt to stab the victim while he was asleep.

During the attack, the aggressor managed to stab the victim in the back of the head with the object and then repeatedly struck him in the head, causing both individuals to fall to the floor during the struggle.

At that moment, the aggressor attempted to stab him in the neck, which could have caused his death. The victim managed to grab the attacker's hand to prevent this, and during the struggle the aggressor ended up injuring his own cheek with the same object.

The attacker also attempted to attack the victim's eyes while holding him by the neck.

As a result of the attack, the victim was transported to the hospital, where doctors documented the following injuries: Assault, Subconjunctival hemorrhage, Left eye injury, Corneal abrasion, and Facial abrasion.

Furthermore, today two officers approached the victim and recommended that he should not report the attack, which creates serious concern for our family.

Additionally, another detainee who remains close to the aggressor has been constantly intimidating the victim by watching him closely.

Because of these events, we seriously fear for the victim's life and request that this situation be urgently investigated and that immediate measures be taken to guarantee his safety and protection.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.
