

Hello . My name is Viacheslav Spirin . I'm try to reach you to describe my situation. Today is January 27, 2026. I stay in Otero County Processing Center almost 7 months, but 3 years ago I already spend 203 days in a jail. September 20,2023 I crossed the board between Mexico and USA. I came in to the U.S by program CBP-ONE. After interviewing with the border officer was replaced to the " Jackson " Detention. After 4 months in it was removed to the "Vin" Detention. On 06.10.24. immigration court made a decision: Withholding of removal under INA 241(b)(3) was granted. On 06.12.24. I was kicked out from a jail. I stayed under ICE supervision. I visited ICE office twice. On 07.11.25. during my next visit I was arrested. As I said before I'm almost 7 months in a jail now. The question is: How long I will stay there? By court decision deportation to Russia is impossible for me. As I know, by law it's a 180 days time limit. I spend much more time in a jail. My deportation officer said that he is looking for the 3rd country for me and waiting for the travel documents for me. I don't know, but for my opinion, it is a little bit strange. What travel documents he is talking about if he have no idea what country I will be deported? Totally I stayed in the jails 1 year and 6 months. Unfortunately I am not so young and not so healthy. I have a big problems with my liver. It's easy to check medical records. Plus depression. I can't sleep well. Regular strong headaches. It's really hard to stay 24/7 in a public place. Looks like I'm on the train station waiting for my train and hundreds of people around me. This is my life and I didn't to finish it in a jail. I not guilty . In court decision nothing saying about my holding in a jail . What I'm doing there so much time? I'm not a criminal. Is it possible for me to wait for the 3rd country at home, under ICE supervision? How it NOT in a jail. Safe me, please. Let me leave a train station. GOD bless you.

Viacheslav Spirin
