CLERK U.S. DISTRICT COURT

Case # 1:26-cv-05062-DJC-AC

Motion to Enforce

I had a bond hearing on 7/21/2026 following the court's order where I appeared without a counsel. IJ denied my bond stating that I was a flight risk and a danger to the community. The IJ ~~do~~ relied only on my DUI. I believe the bond hearing was not adequate and constitutionally defective because the IJ failed to consider alternatives to detention. Also, at the hearing I did not understand the consequences of proceeding without a counsel because I could not provide evidence that I am not a flight risk or danger to community.

I have an order of removal which is not administratively final because I have until August 5th to Appeal which I am going to do.

I request the court to please order my release on any condition of supervision using ATD, which is very effective. A copy of ATD report is enclosed. Alternatively, I request the court to provide another bond hearing where I can present evidence with a counsel that I am not a flight risk or danger to community.
