MOTION FOR ILLEGAL DETENTION HABEAS

Your honor. I am filing a hebeas petition under illegal detention that violates the laws. The agency that illegally detained me and put me in removal proceedings is ice. ICE is part of the Department of Homeland Security, DHS. My name is Blessing Ufuoma Efe Ekiverere, alien number is [redacted]

Firstly, please accept my apology, I will be using repeated words in this petition. I, respectfully truthfully write to you gratefully and hopefully seeking your attention in these matter(s),

I am unlawfully detained in the custody of the U.S. Immigration and Customs Enforcement (ICE) at CoreCivic detention center also know as Stewart detention center 146 cca road Lumpkin Georgia. I am in the removal proceedings. HIowever. My appeals are pending with board of Immigration Appeals (BIA)

I, sincerely and humbly ask the honorable court urgently bring justice to this illegal detention of mine. I may not be able to cite the law. I tended little school, could spell, read and write just a little and say the multiplication sign(s) up to two times. With this this bases. I know when a lie is tall has a skyscraper and big around has a football pitch.

If what happened to me, occurred in the United States, not in Nigeria, why then was I given form I-589 to file under (CAT) by a hearing judge? I could not remember when I requested form I-589 to file for Asylum under (CAT) but out of shared desperation to have my Asylum denied and possibly have me remove from United States. A judge is a righteous person who upholds righteousness in hearing regardless. However. I was given form I-589 to to file under (CAT)

Based on the forgoing. As the judge would know. I was lawfully admitted into the United States through K-1 visa. I got married to my wife at Henry County. Marriage certificate was issued.

[redacted]

Yet when I'd the opportunity to speak to Immigration judge. I was drifted away from the applicable form that could have speak directly to my case or resolve the problems with my wife or could had me a different form of protection. This act from a hearing judge is not credible at all. It's well calculated. The Hon. I J did what she done to me intentionally. She knew I was innocent, knew nothing about Indigenous and Nationality law of the Immigration act(s)

Prior to this time, the I J had already denied my application for **CANCILLATION OF REMOVAL AND ADJUSTMENT OF STATUS FOR CERTAIN NONPERMANENT RESIDENTS**.

By and by. During my Asylum individual hearing – in the judge oral statement what have with your wife and her family member(s) is internal issue and that, that the this Immigration court can not handle that but a family court. The question is that, if that is the case, what am I doing in an Immigration court hearing? Please see attachment for removal order – June 10-2026

Your honor. As you would know. The court is the last hope for the common man. I challenge DHS/ICE, there is no law in the Immigration act(s) that says I should be detained illegally. All instruction sent via email by DHS to me for K-1 visa were followed and completely done

It was a mandatory instruction from DHS, that says get married within 90 days, on or before the end of the 90 days. DHS was specific, that from the day you are admitted into the United States. The sole purpose you were admitted into the United States is to marry your fiancee, now my wife. Should you fail to marry your fiancee on or before the end of the 90 days you will be ask to leave the United States. Please under line the word, <u>should you fail to marry your fiancee</u>.

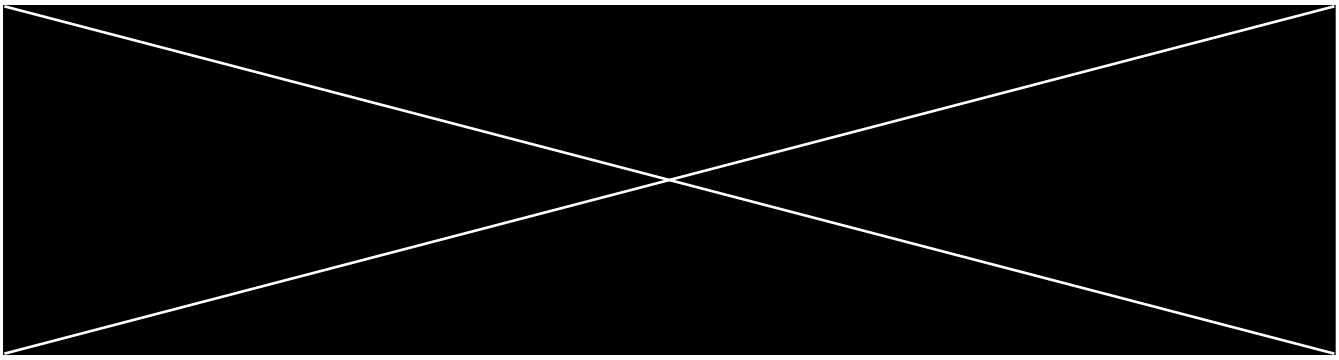

Your honor. It is my wife obligation, responsibility (duty) to file adjustment of status change for her husband. She holds the United States citizenship. Why the unlawful detention? It's not in my prerogative to do so. This is an illegal act to have me detained

Basically. From the examination point. I put it straight hereto that DHS/ICE were deliberate in their actions. DHS/ICE bypassed the Immigration act(s) in which I was admitted into the United States July 15-2025. DHS/ICE lack the orientation of the Immigration act(s). DHS/ICE has no legal standing to put me in the confined environment I found my self. I have not broken any Immigration act(s)

Categorically. I challenge DHS/ICE oppression. DHS/ICE succeeded in abducting me in to illegal custody. Pretentiously using the Immigration act(s) to carryout unlawful activity about me. DHS/ICE illegal detention sit on unjust, fallacious, fake, misleading, illegality and uncivilized

As you would know. We do not need strong memory to remember the truth. If my senses served me correctly. I'd four bond hearing, one of the outcome. The I J ask where is your wife in all of this, why has she not wrote to us? A million thanks to I J George Ward James, for your observation. The attachment is the recent bond hearing June 29-2026

This bring me to the other-side of the petition. It will interest you to know, barely five days I was abducted to ICE detention my wife had already sent my international passport to ICE for my deportation, that is how extreme she and her family member(s) can be about me. But she could not send relief material for bond hearing. Exclusive, just because I reported an assault to the police

Truthfully. The turn around scenario that happened. Two days when I was abducted to ICE detention in CoreCivic detention center 146 cca road Lumpkin, Georgia. My wife had already being luring me the need to go back to Nigeria and start over again. Nevertheless. She sent my international passport to ICE. A day or two after she sent my passport. **STATE OF GEORGIA UNIFORM TRAFFIC CITATION, SUMMONS AND ACCUSATION** mail Notice To Appear Lovejoy municipal court, [redacted] please see attachment

My situation started as a first time traffic offense, involving a 2002 Lexus vehicle. I had no insurance at that time, the vehicle has not yet been paid for. I was in the process of test driving it, after seeing it advertised in Facebook market place, eventually that led to my arrest by the police. I have also written to Lovejoy municipal court severally informing them about my situation and that. I am willing to comply to any penalty deem appropriate

By and by. I told my wife about the **STATE OF GEORGIA** mail that was sent to me in detention and the need to appear before the Lovejoy municipal court and futuristic implication it may caused me but she insisted I should go to Nigeria, and that she will handle that with a criminal lawyer to close the case. But she could not

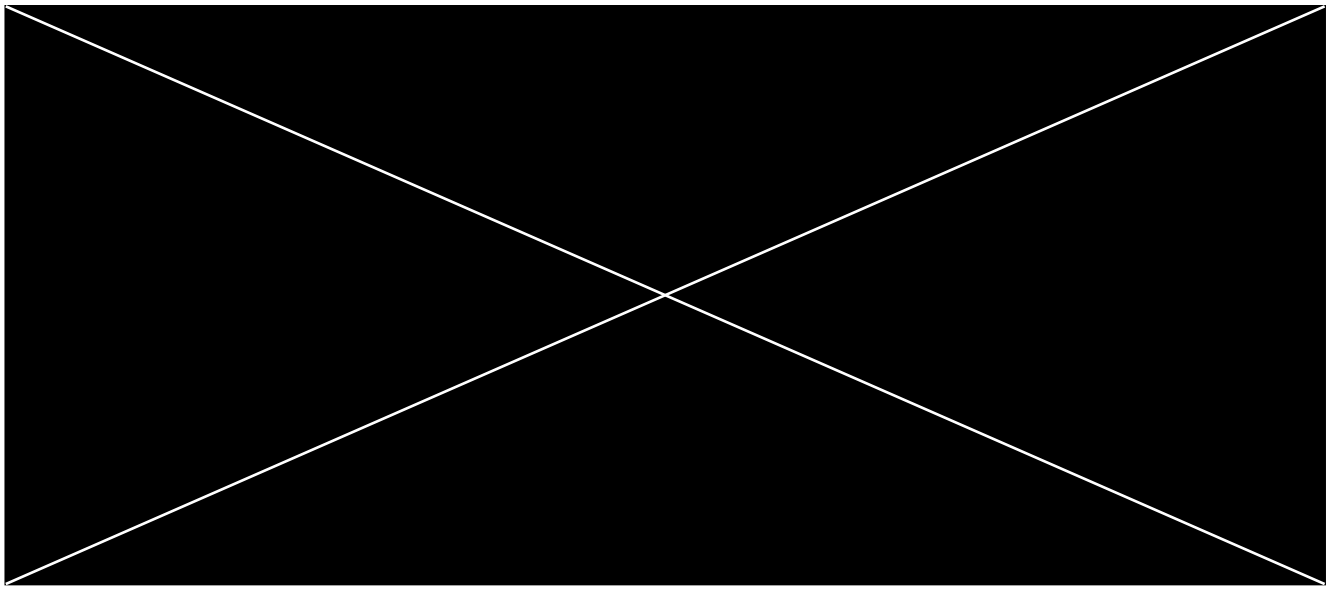

I supposed she went there severally but she was informed by the court. I must appear in person. My wife and her family member(s) grows in frustration. However. My wife and I lives at [redacted] and my wife's name is Elohor Odiete. Prior to the time I was arrested. The person I was driving behind was my wife, a supposed guardian

Fast forward. During my bond hearing, I gave my wife $1.500, one thousand five hundred dollars. My tip money I was saving, while working at the tire shop, to get a counsel to represent me for bond hearing proceedings. But she never did, to this day

Telephonically. My wife blocked me from her direct contact which is [redacted] I can only reach her by a proxy line, which is [redacted] Truthfully. Everything I have said can be verify

As it is. I was admitted into United States July 15-2026, through K-1 visa. I got married to my wife August 21-25 at Henry County, wedding was conducted by Judge Deborah Greene. Marriage certificate was issued for Adjustment of Status Change. Please see attachment for marriage record

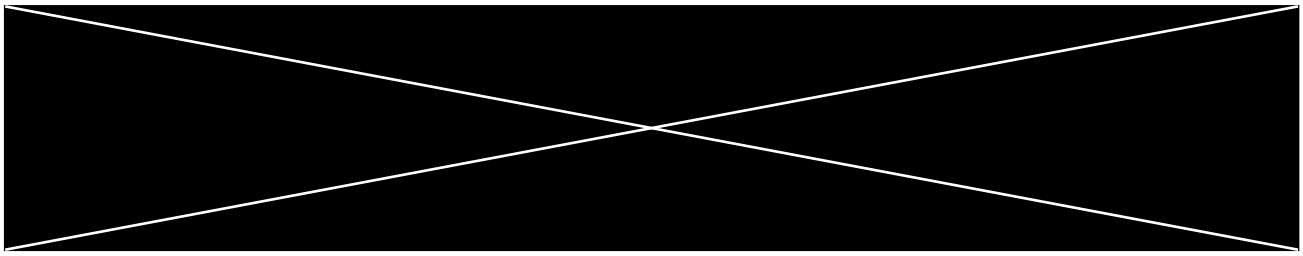

By and by. In two week time, in September, marriage certificate was mailed to our house at [redacted] wonderfully it was my wife's brother Michael Oghenebrume Odiete, who picked up from the mail Box

It will interest you to know. The very day I arrive the United States , I supposed from the airport to the house is about two hours, before I could drop my luggage from the car, I received a call through my wife's phone from her and she said to me, you must start working immediately

Similarly. For the purpose of record. At my wife's watch. I drove the vehicle to work for two to three days, while test driving the 2002 Lexus vehicle. The honorable court can request for surveillance camera for February 19-2026, within the time at the day of arrest, if actually I drove behind my wife or not.

I was driving behind her to Home deport where I could be hired for under table job, in order to cover up for the day whenever I am off at the tire shop. Prior to this time. Another lie she told and lured me into this situation. How her friend who relocated to the United States drove without driver's lenience and insurance for six to one year and nothing happened to her friend (**Another misleading**)

The damaged broken phone is somewhere in the house. I hope my wife as not seen it, where I kept it, because if she sees it, she may repair the phone and login and delete whatever in the phone. She has my password. However. I leave that to the honorable court and that will be a different topic for another day

Your honor. Please kindly verify all that I have said, I may be wrong to be right, and apply the law fairly. However. Does ICE have the legal right to arrest me and put me in illegal detention at all? I humbly ask the honorable court to order my release right this moment

I am determine to appear in Lovejoy municipal court and further court hearing proceedings. I am ready, willing and able to comply to any legal penalty deem appropriate

I sincerely seek your understanding and consideration to bring me justice in your discretion. I look forward to be release into United States to find solace or to my wife at [redacted] Howsoever. My wife and I are not divorce or neither are we separated. I remain hopeful in your decision In envelope is a filing fee and enclosed copy of stamp return

I, Blessing Ufuoma Efe Ekiverere, alien number [redacted], swear on the date below and sign, that in all I have said herein are truth and nothing but the truth
